

Leukoplast® Hypafix® *skin sensitive*

Leukoplast®

Wound care in best hands

Leukoplast® Hypafix® skin sensitive

For secure fixation and reliable adhesion on fragile or compromised skin

Leukoplast® has expanded its range to include Hypafix® skin sensitive, which is designed especially for use on patients with fragile or compromised skin. The soft silicone adhesive helps to protect against adhesive-related injuries.

Hypafix skin sensitive can benefit:

- Elderly patients, an ever growing group who suffer from fragile skin
- Patients whose skin has been compromised as a result of disease, medication or long-term treatment
- Infants whose skin is not yet fully developed and remains extra sensitive

Protects fragile skin

- Reliable adhesion with minimal impact on skin

High wearing comfort

Atraumatic removal

- easy to use and re-position

Extra gentle

- >94% of users confirmed their skin did not react at all*

Easy application

- Can be repositioned multiple times
- Can be separated if stuck together
- Residual-free removal

Skin-friendly silicone adhesive

LATEX FREE
FORMULA

Minimal impact on skin integrity
